1. Coverage: CES Written Standards mandate implementation & operation of the CES throughout the COC & were developed from the perspective of organizations directly providing homeless housing & services, OK-505 covers an eleven-county region in Northeast Oklahoma, which includes Adair, Cherokee, Craig, Delaware, Mayes, Nowata, Ottawa, Rogers, Sequoyah, Wagoner & Washington Counties. All programs receiving ESG or COC funding are required to abide by the standards. Agency program procedures must reflect the policy and procedures described in the CES. The COC strongly encourages programs that do not receive either of these sources of funds to accept & utilize the written standards.

2. Prioritizing those most in need of assistance & are least likely to apply: COC funded PSH are required to follow the order of priority when selecting participants for housing in accordance with the COC's written standards while also considering the goals & identified target populations served by the project in a manner consistent with their grant agreement. CES referrals prioritize households appearing to be the hardest to serve for program beds & services.

This approach ensures an appropriate match between the most intensive services & the people least likely to succeed with a less intensive intervention, while giving people with fewer housing barriers more time to work out a housing solution on their own.

3. Prioritization and provision of service in timely manner: OK-505 adopted the provisions set out in the HUD Notice CPD-16-11 as the baseline written standards for operations of its CES. The CES is intended to increase & streamline access to housing & services for households experiencing homelessness, match appropriate levels of housing & services based on their needs, prioritizing assistance based upon vulnerability & severity of service needs to ensure that people who need assistance the most can receive it in a timely manner.

2. Strategies: CE gathers data about pending homelessness & need for assistance to remain in housing & expedites referral of persons at risk of homelessness. Referrals are made to prevention providers for rental & utility assistance to prevent homelessness. If a HH needs assistance, immediate referral to appropriate sources are made via CE system.

Adoption of the CPD-16-011 and establishing COC priorities for housing those with the longest times homeless, along with designation/prioritization of PSH beds to eh CH and longest-term homeless increased the focus on placement for these HH.
3. Data about the length of time homeless is gathered using the CE at intake. COC uses HMIS data to track this data and uses data reported from spreadsheets or paper reports for agencies not participating in HMIS.
